TC/A.U. 2179

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the

application.

Listing of Claims:

1-23.   (Cancelled).

24.   (Currently Amended) A computer user interface comprising:

a display to present a plurality of dynamically sizable active on-screen displayable

cells for presenting categories of daily information therein, wherein said plurality of

active cells comprise a first cell and a second cell, ~~and~~ wherein said first cell is

automatically dynamically sized based on changes in its amount of content and also

based on changes in an amount of content of said second cell, and wherein said first cell

is increased in size provided its content requires more size than its minimum size

definition and provided further that said second cell is decreased in size below its

minimum size definition.

25.   (Previously Presented) A computer user interface as described in Claim 24

wherein said second cell is automatically dynamically sized based on its amount of

content and also based on said amount of content of said first cell.

26.   (Previously Presented) A computer user interface as described in Claim 24

wherein said first cell displays daily event information.

TC/A.U. 2179

27.   (Previously Presented) A computer user interface as described in Claim 24 wherein said second cell displays daily to-do information.

28.   (Previously Presented) A computer user interface as described in Claim 24 further comprising a third cell of fixed size for on-screen displaying of daily message information.

29.   (Previously Presented) A computer user interface as described in Claim 24 wherein display of cells of said plurality of cells is capable of being suppressed and wherein said first cell is enlarged in response to display of said second cell being suppressed.

30.   (Previously Presented) A computer user interface as described in Claim 24 wherein display of cells of said plurality of cells is capable of being suppressed and wherein said second cell is enlarged in response to said first cell being suppressed.

31.   (Previously Presented) A computer user interface as described in Claim 24 wherein display of cells of said plurality of cells is capable of being suppressed.

32.   (Previously Presented) A computer user interface as described in Claim 24 wherein display of cells of said plurality of cells is capable of being suppressed and

wherein said first cell is enlarged in response to display of said second cell being

suppressed.

33.   (Previously Presented) A computer user interface as described in Claim 24

wherein said first cell comprises a minimum size definition and wherein further said first

cell is decreased in size if its content requires less size than its minimum size definition.

34.   (Cancelled).

35.   (Currently Amended) A computer user interface as described in Claim 34 24

wherein said first cell displays daily event information, wherein said second cell displays

daily to-do information and further comprising a third cell of fixed size for on-screen

displaying of daily message information.

36-48   (Cancelled).

49.   (Currently Amended) A computer user interface comprising:

        a display to present a plurality of dynamically sizable active on-screen displayable

cells for presenting categories of daily information therein, wherein said plurality of

active cells comprise a first cell and a second cell, and wherein said first cell is

automatically dynamically sized based on changes in its amount of content and also

based on changes in an amount of content of said second cell, and said second cell is

automatically dynamically sized based on its amount of content and also based on said

amount of content of said first cell, and said first cell is increased in size provided its

content requires more size than its minimum size definition and provided further that said

second cell is decreased in size below its minimum size definition.
